

Unfaithful

F.A.I.T.H.
Why did you do what you did to me
F.A.I.T.H.
Never again how it used to be

Trusting two together
Life's serenity
Then lightning strikes the blue sky
Chaotic cruelty

F.A.I.T.H.
Why did you do what you did to me
F.A.I.T.H.
Never again how it used to be

Trust is gone forever
Life's brutality
Crying for forgiveness
No way, no more, not me

It's an eye for an eye and a tooth for a tooth
your punishment is coming, wish I knew
what to do
'cause our trust is gone forever, it'll never
be the same
How come I'm feeling bad but you're the
one who's to blame?

Now my darkness overwhelms me
Digging a deeper and darker hole
A bottomless pit to drown and drain me
Where there is no hope for my soul

Can you feel it in your bone
And in your soul that you're not alone
Are you broken and far from home
Remember together we were one

Now my darkness overwhelms me
Digging a deeper and darker hole
A bottomless pit to drown and drain me
Where there is no hope for my soul

F.A.I.T.H.
Why did you do what you did to me
F.A.I.T.H.
Never again how it used to be
F.A.I.T.H.
Why did you do what you did to me
F.A.I.T.H.
Never again how it used to be
F.A.I.T.H.
Why did you do what you did to me
F.A.I.T.H.
Never again how it used to be

Tales From Reality

Fee-fi-fo-fum!
I smell the blood of an englishman,
Be he alive, or be he dead,
I'll grind his bones to make my bread.

Hush hush
– please little baby don't you cry cry
Papa's gonna sing a lullaby by
If fairy tales were real, oh the terror you
would feel
Because the devil will always get the
daughters
Pied piper drowns the children in the
waters
And Cinderella's sisters will be tortured
And Snowwhite will end up being
slaughtered

You're falling down and there is no way to
stand your ground
Life is a sad fairy tale, the good one dies
– evil prevails
But you're falling down a rabbit hole.
Trust no one to save your soul
Don't eat, don't drink, don't ask no more
– the Cheshire Cat settles the score

Mirror mirror on the wall. Who's the
fairest of them all?
Famed (is) thy beauty, majesty. But hold,
a lovely maid i see.

Hush hush ...
If fairy tales were real ...

You're falling down ...

Where the rabbit leads the girl along
Where logic fails and right is wrong
Life is a sad fairy tale, the good ones die
– evil prevails

Fee-fi-fo-fum! ...

Life is a sick fairytale, one by one you're
bound to fail
What is fake and what is real, no one
knows it's all unreal

But you're falling down a rabbit hole ...

Where the rabbit leads the girl along ...

Welcome To The Real World

Come and join us in our world little girl
step inside 'cause it's here you belong
T'ward the light, you've got a long way
to go, but keep it up now you gotta stay
strong

Welcome to the real world
Welcome. A new dawn girl

Leave the old world behind because it's
time to get ready for a brave, new one
Some say it's over, the end, nothing left,
then again life has just begun

Welcome to the real world
Welcome. A new dawn girl
Are you ready to be enlightened?
Keep it steady, don't be frightened
When your time's up, You join a new club
You served your time, when in your prime
you was the catch crop
You say goodbye to (your) entire worldview
The stage is calling are you ready for your
debut

No one can stop you, you're powering
through, 'cause you're pushing the
boundaries within.
Inevitability forcing it's way for a new life

to begin.
The only way out, is the long route
We're getting ready for the necessary
turnout

Welcome to the real world
Welcome. A new dawn girl

Some people argue, you're indoctrinated
But we know the choice was your own
Faith makes the whole world so
uncomplicated
The only truth you've ever known
You'll be disowned

Right or wrong. You know what to
choose, you have to be strong
Open your mind, where do you belong?
Take off your blinkers, stop chanting along
Welcome to the real world
Right or wrong. You know what to
choose, you have to be strong
Open your mind, where do you belong?
Take off your blinkers, stop chanting along
Welcome to the real – So you're finally
here, nothing to fear, the free world just
lies at your feet
A new beginning, a new dawn, a new day
your former truth was a blinding deceit

Forever

Love is what unites us, love will set you free
Love will conquer all, just wait and see
Your love for me is dying, a prison you'd
wanna flee
Love will be the end of you and me

My friends I'm broken, please don't be
too hard on me
You know my love is gone and I'm
crushed, begging darling hear my plea
You ripped my heart outta my chest,
crushed it, stabbed it, made it bleed
But in the end the irony is: your consolation
is my need

Well I'm hoping – that you'll see me
'Cause I'm broken – it's not over
Yeah I'm hoping – that you'll take me
But I'm broken – I need closure

Love is gone forever, love will set you free
Love will conquer all, just wait and see
'Cause my love overwhelmed your life and
made you wanna flee
My love put the end to you and me

My friends I'm broken, please help me
outta my misery
You know I love you all I just forgot how
much you mean to me
I know you're hurt by my neglect – I gave
you nothing but disrespect
But I finally realize, because I was
hypnotized, I will never let you down again
if you let me call you "friend"

Well I'm hoping – that you'll see me
'Cause I'm broken – it's all over
Yeah I'm hoping – that you'll feel me
But I'm broken – I need closure

Have some faith in me my friends
Let's stick together 'till the end
Realizing lovers come and go
But my friends stand by my side I know

Love is what unites us, love will set us free
Love will conquer all, just wait and see
Lovers come and go in life but friends will
never flee
Friendship lasts until eternity

Freedom

As long as you feel the need to censor
what I say
I have to challenge you in every way
'Cause if I give in to you and start to obey
My freedom and values I betray
If you try to break me, deny me my rights
I'll never give up without a fight

'Cause I can say what I want
And I'll try to be blunt
Yeah I need to confront - and I'll say
anything!

Free – to say whatever I need
Free – 'cause you won't ever succeed
Free – let's agree to disagree
Free – failure is guaranteed

Now you try to break me, deny me my
rights
I'll never give up without a fight
YEAH! If I give in to you and start to obey
My freedom and values I betray

'Cause I can say what I want
And I'll try to be blunt
Yeah I need to confront - and I'll say
anything!

Free – to say whatever I need
Free – 'cause you won't ever succeed
Free – let's agree to disagree
Free – failure is guaranteed

Wedding Day

It's a hot summers day, but I'm chilled to
the bone.
I should be happy and gay, but it feels like
my soul is sold
Ding-dong, ding-dong. Wedding bells are
calling
Ding-dong, ding-dong. It feels just like
I'm falling
Smiling faces, but my smile is faithless
Destinated to be castrated
Trapped inside an endless maze determining
my lifetime
Eyes are flashing desperately, they're
searching for a lifeline
No way outta here, I can't disappear, so
let the bells ring
Ding-dong ...
Smiling faces ...
Am I stuck here at the end of the aisle
like a falsely accused in a child molesting trial
Then I see my bride-to-come walking
down t'wards me
Her smile, her dress, she's looking oh so
lovely
"Come with me, join me for eternity
Take my hand, can you feel my ecstasy
Come with me, join me in our destiny
Take my hand feel my ecstasy!"

So she took my hand and we turned
t'wards the priest
I could feel the sweat running down my spine
"Do you take this woman to have and to hold?"
"I am so sorry but I have to decline!"
"Come with me ..."
Ding-dong, ding-dong ...
All directions led down the same one-way
street
Gotta get outta here, (I) stumble to my feet
Smiling faces freeze as I run down the aisle
Can't fool my heart living in denial
They say: "OH MY GOD! What the fuck is
going on"
But it's way too late 'cause I'm already gone
I gotta run to the hills 'cause I gotta
break free
Gotta get far away yeah I gotta be me!
So I'm free at last, free to walk away to
forget the past
The hunter again, my gun is loaded with
Champagne
I smile and lie, and promise her it'll all
be fine
The smallest fling will give it all for a
wedding ring
Lock your door – or I'll turn your daughter
into a whore

Revolt!

REVOLT!

Everything is up for sale, everybody can be bought
On the global market scale no one proclaiming fraud
"What's the price for this my friend, how much do you cost?"
Everything is up for sale, your self-respect is lost

Bankers – bookies – brokers all the same
Everybody is to blame to them it's all a game

My revolution – Your revolution
Our revolution – Only solution
Liberty, equality, fraternity or death
Leave it to the revolution and the aftermath

Money makes the world go round, but someone has to pay
but who's to say we must go this capitalistic way?
The rich are getting richer, the poor are getting fucked
You gotta see the bigger picture: you're shit out of luck

Bankers – bookies – brokers all the same
Everybody is to blame to them it's all a game

My revolution – Your revolution
Our revolution – Only solution
Liberté, égalité, fraternité ou la mort
Push the people far enough, engage the last resort

Moneymen in suit and tie trying to get away
from responsibility – it's time for them to pay!
Grab your pitchfork and your axe, find the guillotine
Molotov is back in style, bring the kerosene

Bankers – bookies – brokers all the same
Everybody is to blame to them it's all a game

My revolution – Your revolution
Our revolution – Only solution
Liberty, equality, fraternity or death
Leave it to the revolution and the aftermath
My revolution – Your revolution
Our revolution – Only solution

A Better Man

Trying hard, not to scorn or disregard
Who you are, the way you feel, a bleeding
heart

Trying hard, not to let us drift apart
Take me back the way we were to the start
All I know is that I've got to try to show
You're my life, and I can't let you go
All I can: try to be a better man
Wash away uncertainty: only plan

Nothing will interfere
Nothing that we can't overcome
Intentions are unclear
Don't give up, don't give in,
I won't succumb - I'm numb

Trying hard – I do the best I can
To be a man, a better man, be a better man
Striving on – 'cause it's my only plan
To be a man, a better man, be a better man

When you feel like I'm a wound that just
won't heal
I take it in, recognize (my) Achilles heel
When you feel, you got the short end of
our deal
In our life don't wanna be the third wheel

Nothing will interfere
Nothing that we can't overcome
Intentions are unclear
Don't give up, don't give in,
I won't succumb – I'm numb

Trying hard – I do the best I can
To be a man, a better man, be a better man
Striving on – 'cause it's my only plan
To be a man, a better man, be a better man
Give me a chance you know I'll do my best
Show me the way and put me to the test
I'll do my best, time to reassess
Give me a chance and let it be the last
Let's move ahead forget about the past
I'll do my best, time to reassess

Re-earning your trust, I'll never let you down
Believe me, believe me, believe me till
the end
I'll never neglect you, nor this time around
Deceiver, deceiver, deception once again
Re-earning your trust, I'll never let you down
Believe me, believe me, believe me till
the end
I'll never neglect you, nor this time around
Deceiver, deceiver, deception once again

Great Depression

They tell us to keep calm, to keep the
ship afloat
No need to be alarmed. We see the
bankers gloat
Just keep on spending cash. Just spin
the spinning wheel
While rich folks stack their stash, and
close their secret deals

Great depression
Repossession
Final chance for your confession

Responsibility or volatility
It's what you really are: a liability
No more, we've had enough, we see right
through your lies
You lose, we call your bluff, hypocrisy
demise

Great depression
Repossession
Final chance for your confession
Fight oppression
Ask the questions
Time will show the forged regression

Get down from your high horse
and face the working force
we'll strike with no remorse

Time will tell who's standing tall, and who
will crumble and fall
Tipped the scale 'cause you wanted it all
Weave a web of lies; Betray. Try to hide
try to run away
Judgement day it's time to pay

Great depression
Repossession

Final chance for your confession
Fight oppression
Ask the questions
Time will show the forged regression
Get down from your high horse
and face the working force
we'll strike with no remorse
